Directions for Commercial Use:

Ground: BioMax can be applied or metered through irrigation. If ground applying, ensure that BioMax is incorporated into the soil immediately after application, either mechanically or with sufficient water to wet soil to a depth of 2.5 cm (1 inch). Apply BioMax at a rate of 610 ml - 2.5 L/ha (250 ml - 1 L/acre), up to a maximum of 4 times per year. BioMax can be mixed with most organic fertilizers. A compatibility check is recommended. BioMax is intended to supplement and enhance a full ground fertility program as recommended in accordance with a reliable soil analysis. This product should be applied based on the advice of a government agricultural representative or a professional agricultural consultant.

First Aid:

IF IN EYES: Hold eyelid open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Have a person sip a glass of water if able to swallow. Do not give anything to an unconscious or convulsing person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
