Directions for Commercial Use:

KDL is intended for foliar use. Apply 2-4 L/acre (4.8 – 9.6 L/Ha) with sufficient water for thorough coverage. For best results, spray in early morning or late afternoon. Do not during the “sunlight” hours when air temperature is above 30° C. Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops. If you have any questions regarding mixing or application rates contact your Agro-K dealer before using this product.

Warning: Use caution when tank mixing with acidic products. Start with full tank of water before adding products. Do not mix in concentrated form with acid based products.

FIRST AID:

IF IN EYES: Flush with plenty of water and get medical attention or contact poison control centre.

IF ON SKIN: Wash with soap and water.

IF INGESTED: Get medical attention or contact poison control centre.
