

Clean-Symspray is a post-emergent foliar spray designed promote growth and relieve plant stress. Proper nutrient management will help maximize crop quality and yield. Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops.

### Directions for Commercial Use:

FOLIAR: Apply 8 oz to 2 pints per acre with sufficient water for thorough coverage. Apply ahead of or during anticipated environmental or physiological periods of stress. Repeat every as needed but no sooner than every 14 days.

APPLICATION PRECAUTIONS: Avoid applying to wet leaf and fruit surfaces. Apply to dry plant surfaces to the point of wet with no run-off. Avoid spraying at temperatures above 85 degrees at time of application during day light hours.

MIXING: Clean-Symspray may be mixed with most fertilizers, insecticides and/or fungicides. A compatibility check is recommended. Check with your field representative for specific recommendations.
